## Profile

I am a Front End Developer with one year of experience in designing and developing web pages and applications.I am proficient in HTML, CSS, JavaScript, php and sql.I have strong communication and problem-solving skills, and i am able to work effectively both independently and in a team.

## Professional Experience

**Front End Developer**                                                                                       05/2022 – 06/2023
To create dynamic ads and create website.                                                      Pune, India

**Analytical Dashboard**- I worked on the dashboard where we are presenting the data of a particular  campaign of a particular client. Like what is the impression, clicks and CTR of a campaign.
**Language used**- HTML, CSS and php

**Selfserve Tool-** In this tool a non tech person come and follow the few steps and they can creates an ad  without any help of technical person. I design their register, login and forgot password page.
**Language used-** HTML, CSS and php

**Product library-** In this we are showing Company's Best performing ad with slicing and dicing ad.
**Language used-** HTML, CSS and php

## Education
